| SPECIFICATION <sup>1</sup> |   | METRIC               | IMPERIAL             |
|----------------------------|---|----------------------|----------------------|
| MATERIAL                   | TYPE                                    | Woven                |                      |
|                            | COMPOSITION                             | 100% Polyester       |                      |
|                            | DESCRIPTION                             | Coated               |                      |
| PROPERTIES                 | WEIGHT <sup>2</sup>                     | 120 g/sq.m           | 3,54 oz/sq.yrd       |
|                            | MAX WIDTH                               | 310 cm               | 122 inch             |
|                            | STANDARD ROLL LENGTH                    | 50 m                 | 55 yrd               |
|                            | RECOMMENDED FIXATION TEMP. <sup>3</sup> | Refer Printer Manual | Refer Printer Manual |
|                            | SHRINKAGE <sup>3</sup>                  | <2-3%                |                      |
|                            | YELLOWING TEMP. <sup>3</sup>            | >210°C               | >410°F               |
|                            | YELLOWING TEMP. TEST                    | SUPRKC REX-C400, 30s |                      |
| APPLICATIONS <sup>3</sup>  | Light Box                               |                      |                      |
|                            | Display                                 |                      |                      |
|                            | Silicone Edge Graphics (SEG)            |                      |                      |
|                            |   |                      |                      |

<sup>1</sup> This information should be used as a guide only. Figures are test result averages and should not be used for lawsuits or warranties.  
<sup>2</sup> It is normal for the weight of most products to fluctuate by ±5% on average.  
<sup>3</sup> Users should independently test & determine the product's application & printing suitability, shrinkage, fixation and yellowing temp.
